[WRITING FOR THE WEBSITE](#)

1. Know your audience. When you are writing your copy, know (and envision) the audience you are addressing. 2. Address your audience directly. This means your language. Example: You can return an item borrowed from the library to any library in the system. Not Items borrowed from a DCLS library can be returned to any library in the system. We want the website to be a conversation, not a dissertati...
