[APP INVENTOR TUTORIAL 11 ? QR CODE READER](#)

This is an app which will demonstrate the use of the phones built-in camera as an input device for a QR Code scanner. Note this app will not work on the emulator because it is using the camera module as an input. Please note: before this app will work it requires XZing Barcode Scanner to be installed on the device also. This app is the quickest way to install dependencies which App Inventor Barcode scanner requires.
